

# HURRICANE RESPONSE CONTINUED

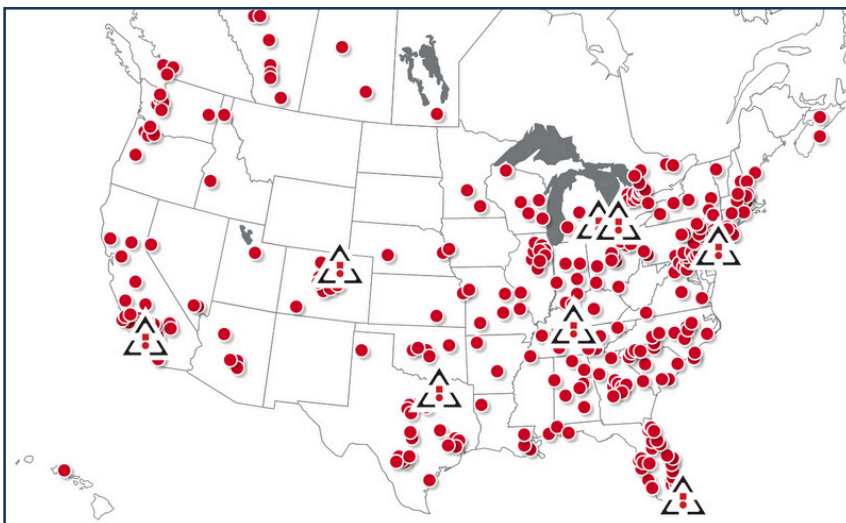

How our company handles large-scale water damage events, including the availability of specialized equipment and trained personnel:

PuroClean is fully equipped to handle large-scale water damage events with a structured response plan, specialized equipment, and highly trained personnel.

Our team includes IICRC-certified Managers and Technicians with expertise in Commercial Drying and Large Commercial Loss Management. Additionally, we have access to a network of IICRC-certified technicians and project managers to scale our response as needed.

We collaborate with our partner company, Signal Restoration, which specializes in large commercial losses and catastrophic events (CAT Events). Their extensive resources allow us to expand our capabilities when necessary.
